# Company

# Our history

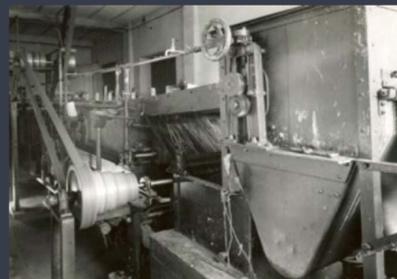

Company

Chemical products for the shoe industry

1935

Manufacturing of rubber compounds and impregnated textiles

1950

Pioneers in productions with of 2 or more components

1970

Pioneers in productions with of 2 or more components

1990

Moulding with thermoplastics and silicone (overmoulding)  
Extension of R&D  
Collaboration with universities

2000

# Our history

Company

**IRIS**  
Certification

Certified suppliersnach  
IRIS rev. 2, Manufacturing  
plant expansion

Neue Abteilung für die  
Produktion von Swisstop  
Scheibenbremsbelägen

Suction and cooling  
system in the  
vulcanization  
department: better  
working conditions

DMA: Dynamic  
Mechanical Analysis,  
Study of the properties  
of materials

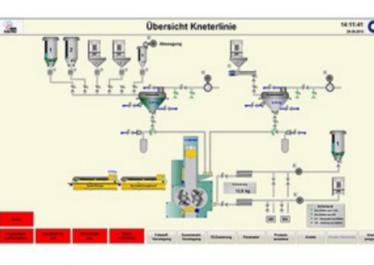

New buildings: bearings  
for finished parts, new  
rubber-metal production  
department, silicone and  
thermoplastic products

DSC: Scanning  
Differential Calorimeter,  
Study of the properties  
of materials

Automatic acquisition of  
mixing process data:  
quality control
